So based on my calculations, the total cost of the emergency, less 50% of the refundable HST, is \$5,165.85. I will bring this exact amount to the committee of the whole for decision, so the motion can be for the exact amount.

Alain

Good Afternoon Alain,
Attached please find a Special Request to reimburse Club Social des Iles for the Emergency Funds it had to pay due to the discovery of very dangerous and faulty

electrical wires underneath the old part of the club. Also attached are copies of the invoices for those payments and a copy of the quote to have the work done.

Regards,
Earl
