Liz,

Based on the discussion of Council at today's COTW and the resulting recommendation going forward to Council Feb. 27th, booking a meeting of the group of 9 is in order.

I am concerned with how challenging it is to get the schedules of the group aligned for this to happen. So, I'd like you to reach out to the group to get a sense of who can make room on the

calendars for a two hour conversation with the purpose of defining the project process, discuss partners, begin to build the structure and mandate for a steering committee.

Please see if the group can make themselves available on Feb 28, March 1 or March 4. We can host here in the Councillors' lounge.

If those dates won't work, Argyle will need us to look ahead to week of March 11.

Thx.
