P.O. Box 10  
Tusket, NS B0W 3M0

Dear Alain,

Nakile Board of Directors recognizes that the partial tax exemption granted to Nakile for the past five years has been beneficial in terms of allowing us to manage our operations budget, as we face ongoing reductions in our funding from Department of Health and Wellness. The budget cuts introduced in 2015 continue to be reflected in our annual budget releases, and as you know, our budget does not contain designated funds for items such as taxes.

Given the ongoing budget cuts and lack of a process to secure funding for additional costs, we do not anticipate being adequately funded by DHW for our full tax bill in the near future. Therefore, we would like to request that Nakile be considered for continued partial exemption status (ie. taxes are capped at \$25,000) as per the current year.

For more information or discussion, please contact me or Gail Kaiser, Administrator.

Your truly,

Raymond Doucette  
Chairperson  
Nakile Board of Directors
