

Hi Kathy:

I am writing to express my concern over the announced closing of The Yarmouth YMCA. I feel the YMCA is an important community asset, that should not be allowed to disappear. The Y has been in the community for over 162 years and has contributed to the residents of Yarmouth county in many ways. The loss goes beyond the centennial pool it extends to the overall health and development of our community. I know that this facility is instrumental in attracting talented people to our area. Without the YMCA we will be sadly disadvantaged. I would urge you to help in any way possible to ensure that we do not lose this important asset. I appreciate your time is considering this issue, and hope you are able to influence a positive outcome.

thanks
