

I support reopening the former YMCA Community Centre as it is the best bridge until we can get a new aquatic and recreational facility at the Mariners Centre. Our communities cannot go for 5-10 years without a pool and associated facilities!

When my children were young I brought them to the YMCA for swimming lessons, birthday parties and other activities. I myself used to take lessons there as a child. I also had a gym membership there years ago. There are so many opportunities for our children and youth to benefit from reopening the YMCA.

Sincerely,
Melinda Morton
