Dear Glenn Diggdon,

I am writing to you as our councillor for the municipality of Argyle. I would like to know if I could apply for a community fund grant from the municipality for our school, École Pubnico-Ouest. The reason for this request is because the funds would greatly help our school cafeteria.

I'm not sure if you are aware that our cafeteria is not funded by the government. It runs solely on the revenue of the meal tickets bought by parents for their children to eat at school. During COVID-19, the prices of food went up considerably and for that reason we have had to increase our lunch rates. We are having less and less students eat at school because a greater number of them bring their lunch. That, as well as declining enrollment during the last 7 years, has affected the financial state of our cafeteria.

Any help would be greatly appreciated!

Merci,

*Claudette d'Entremont* - directrice École Pubnico-Ouest
