Re: RFP for Tusket Treatment Plant Generator Project

September 15th, 2021

We are pleased to offer you this quote for the removal and re-use of the existing generator at former Municipality of Argyle office at 27 Courthouse road, Tusket. Please review the following scope of work.

- We will be removing the existing generator at former Municipality of Argyle office at 27 Courthouse road, Tusket.
- We will disconnect existing 200 amp Automatic transfer switch at same location and make wiring repairs to existing building.
- We will repurpose both the Generator and 200 amp Automatic transfer switch at the Tusket Sewer Treatment Facility which is also located on Courthouse road.
- The new installation will be complete with concrete pad for generator. Safety pillars will not be necessary for this application.
- Work includes all labour, materials, permits and NS Power fees to complete scope of work above.

Note: Shut down time will be required at the Tusket Sewer Treatment Facility in order to perform the service alterations. We've allowed for 6-8 hours of shut down time.

Not included:

- Sewer pump trucks
- Emergency power during shutdown
- New fuel tank and installation
- Commissioning generator and transfer switch at new location

Price for above scope of work: \$ 16,750.00 Plus HST

*****Pricing subject to change after 10 days*****
*****Pricing of materials subject to re-assessment at time of Construction due to constant market fluctuations*****
