**RE: Increasing Climate Resiliency through Tree Planting in SWNS**

As per your email request December 21, 2022, the council of the Municipality of the District of Argyle has approved that we support your request in identifying land so that your organization continue the initiative of Natural Resources Canada for planting 2 billion trees across Canada.

We have identified two locations owned by the municipality for your consideration:

- Location #1 PID# 90106402 - Mecoque Road (Abandoned Landfill) 10.48 Acres
- Location #2 PID# 90039520 - 556 Gavel Road, Gavelton (Around the Tuskett Ballfield)

We request that you contact us prior to planting any trees on these lands. We would like to work with your organization to map out a plan of where we would like these trees could be planted on these identified parcels of land.

I trust this information is sufficient, however, if you require further information, please contact me at (902) 648-3293.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Scott Surette', is written over a light blue horizontal line.

Scott Surette  
Deputy Chief Administrative Officer
